

zelia

Ultra-compact and luminous Salt Chlorinator

Salt Chlorination with Colour changing cell

Zelia is a salt chlorinator with transparent cell. The cell is lighting according to water temperature and salinity. Zelia features an ultra-compact cell designed to cramped inground filtration units.

Zelia automatically adjusts chlorine production according to water temperature and pool cover condition.

- Variable chlorine production according to water temperature
- 2014 Innovation prize winner
- Automatic Water Treatment
- Transparent cell to check water conditions
- Unique salt cell colour changing depending on water salinity
- Quick installation in small filtration enclosures
- Suitable for pools up to 60m³

Compact power supply with easy connection

Ultra-compact and luminous Salt Chlorinator

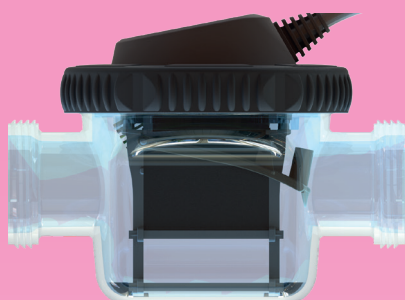

*Embedded ergonomic
control*

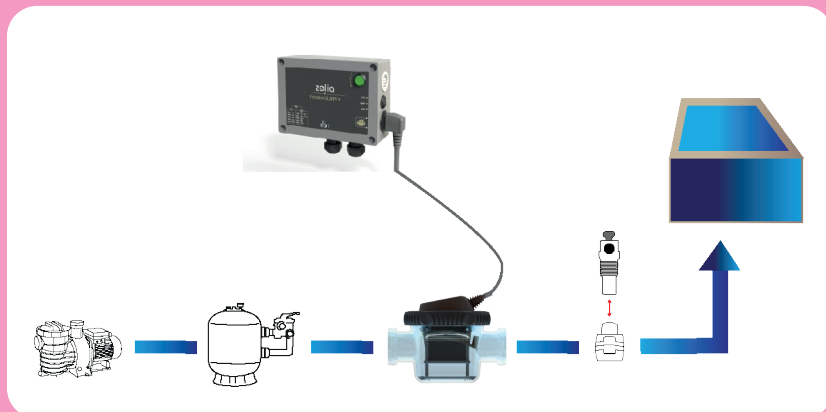

*Solid titanium plates
with ruthenium treatment*

*Standard connection
Ø50 mm - 1.5"*

*Zelia cell length: 18,5cm
Cell ideally suited to inground
filtration units*

TECHNICAL SPECIFICATION

MODEL	zlt 25	zlt 50	zlt 75
Reference	PF10I060	PF10I061	PF10I062
Control panel dimensions	175 x 125 x 60 mm		
Cell length	185 mm		
Max pool volume	25 m ³	50 m ³	75 m ³
Power supply	230V AC - 50 Hz		
Max cell flow rate & pressure	15 m ³ /h - 3 bar		
Salinity	2 - 5 g		

Salt chlorination

Thermoregulation

Pool cover detection

Zelia Cell

Self-cleaning cell

Embedded Flow switch

Backlit display

*Production stop at
low temperature*
